

JAN XAUBET

ABOUT ME

I am a person with a high ability to solve problems, to work in a team, flexible and decisive. I really like the digital world in all its sectors, from the systems and networks environment to software development. My goal is to learn everything I can to be able to develop applications in the new world of Web3 and blockchain which I believe are new technologies that can change the world.

SKILLS

- My Programming languages include C++, HTML5, CSS, JavaScript, Java, PHP and MySQL (Junior level)
- Ability to work in Linux and Windows environments.

WORK EXPERIENCE

01/2022-06/2022

Scholarship holder at Cesc-it as System Admin trainee

06/2022-Present

Junior software developer in James & Rita
